Dear Gerald,

The puffery of the coming assassination books reminded me that you bowrowed some pictures when you were here. I do not remember their return and my file holds no letter covering their return.

How about it?

As you may remember, I try to keep a record of the books for the historical record. You may recall the file I have on the 25th anniversary.

If you would plea ask your publisher to send me copies of whatever they do to promote the book my file and I will thank you.

I would, of course, also appreciate copies of anything on the other books. I am not, as you know, in a position to obtain much of that.

Sorry you and Trisha did not get back for Thanksgiving, as we'd thought.

But they Lil had much frozen turkey for when she was too tired or too busy to cook.

Sincerely,

Harold Weisberg
